

RVPF Governance

Document Metadata

Document ID	GOV-001
Title	RVPF Governance
Version	0.1.
Status	Stable
Author	Olaf Erler
Maintainer	Olaf Erler
Artifact Owner	Olaf Erler
Created	2026-07-30
Last Modified	2026-07-30
Depends on	CS-001
Referenced by	Alle RVPF-Artefakte
Artifact Type	Core Specification
Approval	Accepted
Traceability	

Purpose

This document defines the governance process for the Responsive Virtual Production Framework.

It specifies how artifacts are created, versioned, reviewed, approved and maintained.

Document Scope

This document defines

- Artifact Lifecycles
- Versioning
- IDs
- Documenttypes
- Approval Process
- Traceability
- Change Process

This document explicitly does **not** define

- Technical Models
- Aritecture
- Implementations

Related Artifacts	ID	Dokument	Beziehung
	VSN-001	Vision	Grundlage
	GLS-001	Glossar	Verwendet
	RA-001	Reference Architecture	Konkretisiert
	TMP-001	RVPF Template Artifact	

Normative References	
ID	Beschreibung
VSN-001	RVPF Vision
GLS-001	Glossar
RA-001	Reference Architecture

Version	Datum	Änderung
0.1.	30.07.2026	Stable

Artifact Types

Prefix	Artifact
VSN	Vision
CS	Core Specification
RA	Reference Architecture
GLS	Glossary
DM	Domain Model
IL	Implementation Layer
ADR	Architecture Decision Record
TMP	Template
GOV	Governance
UC	Use Case
VAL	Validation

Status	Beschreibung
Working Draft	aktive Bearbeitung
Review	fachliche Prüfung
Stable	Inhaltlich stabil
Release	Veröffentliche Version
Deprecated	ersetzt

Approval Process

Aritfact Owner → Review → Approval → Stable

Versioning

Type	Description
Major	Architectural Changes
Minor	New Content
Patch	Fixes

Traceability

Every normative document must include its dependencies, its normative references and its document references.

Change Process

New Idea → ADR → Core Principle → Glossary → Domain Model → Reference Architecture → Implementation → Validation
